

THURSDAY, APRIL 12

NACE LA SECTION MONTHLY MEETING & TOUR

Hyperion Treatment Plant – City of Los Angeles

NACE Los Angeles Section would like to invite its members to our monthly meeting and annual field trip. The meeting in April will be a **lunch** meeting and this year we will visit L.A.'s oldest and largest wastewater treatment facility. The plant has been operating since 1894.

The tour is an overview of the process at Hyperion by a plant corrosion expert and will last 60-90 minutes. After an introduction, which includes a short history and the treatment used at the plant, we will use a tram to visit several areas. The process for the individual sites will be explained.

You will need to wear closed in walking shoes. No sandals or open toes shoes allowed.

Prior to the tour we will meet for lunch at: Rock & Brews Rest, El Segundo

Parking is limited at the treatment plant and tour capacity = 50

Lunch: Rock & Brew Rest
143 Main St., El Segundo

11:30am – 1:00pm

Hyperion Treatment Plant

12000 vista Del Mar
